

T-20/60

wellTEC®

wellTEC® T-20/60 is a profiled metal sheet which is often used for facades internally and externally, but can also be used in soffits, furniture and ceilings. The wellTEC® range offers you a wide selection of different profiles from Square, Sinusoidal and Zigzag. All of the wellTEC® profiles are available in a variety of different finishes and textures to help create the aesthetic required.
